-WHEELING, VA:-TUFSDAY MORNING, OCTOBER 9, 1855.

Railroad Matters. The Council met on Saturday night, and Mr. Sweeney, chairman of the Railroad Committee, presented to the Council the draft of an agreement etween the members of the Board of the Central Ohio Railroad Company, and the Railroad committee of this city, subject to the approval of the Council, and the Board of said company. The matter was laid over for Friday evening next for final action. As this agreement contemplates a final settlement of the controversy between the city and that company, which, with or without cause, has long existed, it will doubtless be a matter of interest to our citizens to know its provisions. We state the leading features from memory. The company agree to abandon the Belle-Air and Benwood connection with the Baltimore & Ohio Railroad forever, and to extend their road forthwith to Kirkwood, opposite the city of Wheeling, and to pass their freight and passengers to the B. & O. R. R., within the corporate limits alone of the city of Wheeling, and to make a connection with that road at no other point whatever. They agree to put the road from Belle-Air to Kirkwood under contract forthwith, and to prosecute it vigorously to completion. A boat is to run from virkwood to Wheeling at Eoff's landing and the city wharf, to convey freight and passengers, and the Central company is not to receive freight from other boats brought from the Baltimore and Ohio Railmad company. These are plain propositions. The city of Wheeling is to abtain subscriptions

to the capital stock of the Central Ohio Railroad Company to the amount of \$50,000, one-half payable in cash, and one-half payable in the notes of the Central Ohio Railroad now outstanding-the cush portion to be paid only on the work done from Belle Air to Kirkwood, on the order of the superintendent to the contractors for work done. The city further agrees to aid the Road in procuring a charter for a bridge at such point between the north point of Zane's Island and the south point of Bogg's Island as the compony may select, provided, that if a point outside the corporate limits is selected, the said Central Ohio Railroad Company shall not make or permit any connection between their road, and any road east of the Ohio River to be made outside the corporate limits of the city of Wheeling. Nor shall any such road use said Bridge, and thus connect with the Centra west of the Ohio River. The present connection to continue until the road is completed to Kirkwood, unless in low water and ice, when the Central may connect as best it can. The estimate is that the cars will be running to Kirkwood by 1st of January next.

These are the leading provisions of the contract and the question presents itself at once: Should the city of Wheeling ratify this contract? We unnesitatingly answer that we think she should, and will proceed to state very briefly our reasons, and we are induced to do so from the random and partial view which was taken of the question by some of our city sages on Saturday evening at the meeting of Council. We mean nothing disrespectful of any member of Council by this remark, but we were surprised at the limited views taken by some on this question, when it should rather have been viewed with the llarger eye of public policy, as a final settlement of long vexed questions, and as practically and forever fixing the termini of both the Eastern and Western railroads looking lowards the city of Wheeling; as a proposition which, without the injunction, secures to Wheeling the practical benefits of the terminus of the Baltimore and Ohio Railroad," while at the same time it secures to ner the "practical benefits of the Eastern terminus of the Central Ohio cailroad," giving also an early, instant, and active stimulus to the Hempfield Railroad and beckoning it to completion. The funds can be raised by a proper effort, the bonds of the city being easily convertible, at par, into the bills outstanding this company.

It is objected by some that this unites the Central and Cleveland roads, and will thus take trade and travel to Pittsburgh, from Columbus. Will this be probable, when the Steubenville Road from Newark offers a much shorter route, and the road from Columbus to Pittsburgh direct, via Alliance, is more available than either. Another objects that it gives bridge power, &c. Look at the matter calmly and what is it? The company covenant to make their connection in and at the city of Wheeling, and if the bridge is not made in the corporate limits that they will connect with no road whatever outside the city limits, and that no other road shall use that bridge to connect on the west side of the river without the consent of the city of Wheeling.

Some objections are urged as to localities in Wheeling favored by the contract. It is time to stop this sectional feeling here, if it can be done. The city of Wheeling is a unit. Let us continue her such. Let us know no North Wheeling, no South Wheeling, no East Wheeling, in these general and important questions, but look to the city and the whole city, and thus alone can we succeed in our efforts for trade and prosperity. It is objected that this proposition interferes with the present bridge. It does no such thing. It leaves the bridge precisely where it found it. If it is the best place for crossing the Company will of course prefer it, and if it is not they will not and should not. This bridge is constructed, and If it can be made to suit railroads at less cost and equally well with an one, the Bridge Company will find (should they desire it) the Central Company willing to take that course which is best for their road, and they should look to that in their action. This is a speculative question for the present, however .--Let us look to and act upon the same principles which should govern the Company and all will be well. The present Board sincerely desire to run the road into Wheeling, and connect in Wheeling. The Belle Air speculators are out of the Board and the road will now be managed for public and not private objects. Let us act with it so for as we consisently can, and by judicious investment now, endeavor to get back some of the money we have thrown away to the Cincinnati and Marietta hum-

TTA singular mitroad acc dent occurred at Boston on Thursday. One of the early trains was anproaching the depot; the locemotive and tender were unshackled at the usual place, for the ourpose of being run upon a side track, and allowing the cars to pass into the denot. The locomotive and tender were retarded, the train overtook and struck against the tender with such force as to open the throttle valve of the engine, which instantly started ahead at a greatly increased rate of speed. The engineer and firemen seeing that the train was coming immediately upon the tender, leaned from the engine an instant before the collision, and a switchman shifted the switch just in season to run the locomotive of the track. The result was, that the locomotive and tender ran a distance of 75 or 100 feet, tearing up and demotishing everything in their way,

The 100th birth day of the Rev. Mr. John vyer, of Bangor, Me., is to be celebrated in that city to day with appropriate ceremonies, in which the aged clergyman himself will participate.

From the Baltimore Patriot of Saturday Evening. From Norfolk and Portsmouth. Dr. Powell, of the North Carolina, which steamer arrived here this morning from Hampton

Roads, informs us that at Norfolk, on Thursday there were five deaths and eight new cases of fe ver; and one death and three new cases on Friday up to noon. Rev. Dr. Jackson is dead.

Dr. Wright is ill with the fever. There were no deaths in Portsmonth on Wed resilay-but on Thursday there were eight deaths and five new cases in that city. But one death on Friday up to the time of sailing of the boat.

Dr. Hungerford, of Baltimore, is sick with the fever at the Naval Hospital, but was expected to

t Norfolk and Porsmouth were of persons who death was already on the flower as its life-sun had returned to their homes from other places.

Correspondence of the Richmond Dispatch, Nonpolk, Oct. 3 Robert Dalrymple, stone mason, and one of our most useful and enterprising men; died yesterday.

His wife lies exceedingly ill.

Mrs. E. Dusch, Mrs. Fentress, Phobe Berry, Miss Susan Southgate, another intersting daughte of the late Wright S., formerly cashier of the Exchange Bank, Miss Delacy, Christine, a Sister of Charity, John Richardson, D. Jhonson Thomas White, constable, and some half a dozen colored persons have died since my last.

The disease has appeared in the estimable family of Lieut. Poindexter, U. S. N., about 3 miles from the city. His lady and daughter are down with the fever. They had not been to the city for several months.

A Mr. Ewell, in the village of Kempsville, about ten miles to the east of Norfolk, has the fe ver. He no doubt took it here, as he has been in

weeks longer, and as patiently submit to priva-tions and anxiety as possible. The fever that has raged here, and left our city so deeply afflicted and enshrouded it in gloom, is fearfully malignant and awful in its character—frequently entirely un-manageable by the best medical skill. Attacking the strong as well as the weak, it often runs its rapid course in two or three days, and the body, a rapid course it two of three days, and the course and was contradicted by the Commercial; but plain-mere wreck of what it was, falls, a loathsome, and was contradicted by the Commercial; but plain-bleeding, putrifying corpse, that must be hastily tiff contended that his buisness was injured, and insigned to the earth

It is a disease that should be dreaded and avoid ed, if possible. It has crushed, and is still on ressing, so many families, and filling so many earts with sorrow and gloom, that its final depart are from us is most earnestly to be desired; an nose who are now beyond the reach of its terri-le grasp should remain until advised by experienced physicians to return.

I regret to add that the Rev. Wm. Jackson, the able, devoted, and esteemed pastor of St. Paul's is dying. His loss will be severely felt, and he will be greatly lumented. He was nawearied in his attentions to the sick and the suffering, and his reward will be great. Alas! how sad the an appeals from the pulpit, and who know of his faithful ministrations in the home circle, as well as out he sacred desk of the sanctuary of the liv-

A TRAGEGY IN SALEM .- Passengers by the Wes Lynchburg, that Dr. Richards, of Salem, Roanoke county, had been shot and killed by one Mr. Caldwell, in consequence of certain statements which Dr. R. was represented to have made derogatory to the character of Mrs. Caldwell. Dr. R. was whether he had made the statements attributed to therefore await particulars, which we suppose

LATER .- THE SALEM TRAGEDY .- The Lexington Gazette publishes additional particulars of the rate tragic occurrence:

Is appears that Mr. Clayton Caldwell, of Newcastle, Craig county, separated from his wife some 13 years ago on account of alleged infidelity on her part; and recently Mr. C. had cause to sus pect that Dr. R. was the offender. As no one was present at the interview between the parties which took place at Dr. R's. office, it is only lef to conjecture that Mr. C. went and demanded faction immediately drew a pistol and charged its contents into the abdomen of Dr. R. Dr. Terril happened to be riding by at the instant, hearing the report of the pistol dismounted and hastened into the office. Dr. R. as soon as hereceived the fatal wound, run out into the yard and cried for help. When Dr. Terrill entered the of fice, he found Mr. Caldwell alone in the room and on enquiring 'What was the matter?' Mr. G. while in the act of putting a pistol into his pocket, replied. 'I shot him, and I do not deny it?' Dr. Richards lingered only a few moments and expill. Caldwell was immediately arrested and is now

THE UNDERGROUND KAILROAD .- A clergyman of the Cumberland Presbyterian Church in Indiana, has been tried by his Presbytery, and sus. nended from the ministry for unchristian conduct specified in the charges as "associating himself with an organization known as the underground railroad, whose avowed business is to assist slaves to escape from slave to free territory," and "actually engaging in the business" so specified "which is contrary to the laws of the United States, and We are prepared to furnish Printers with Wade's suthe statute laws of the State of Indiana." The witnesses on the trial testified that the minister had boasted to them of the number of slaves he had aided to escape, giving the names of places in Kentucky from which they had fled, and that he had said that he never denied belonging to the underground railrond. Most persons have hitherto regarded this latter as a myth, but it would seem, from this formal trial and conviction, to be some what of a reality.

Coinage of the World .- The aggregate coin age of gold and silver of the four great powers of the world for the last seven years, from 1848 to and Main sts. Strangers are invited to call, citizens of 1851, both inclusive, is as follows:

the United States, for the same period, exceeds \$600,000.

The total coinage of Austria, Prussia, Holland and Belgium, for the like time, added to the four great powers above, swells the total aggregate of

A TOUCHING INCIDENT .- A little girl, in a family of my acquaintance, a lovely and precious child, lost her mother at an age too early to fix the loved features in her remembrance. She was as frail as beautiful, and as the bud of her heart unfolded, tesemed as if won by that mother's prayers to turn instinctively heavenward. The sweet, conscientious prayer-loving child was the idol of the beteaved family. She would lie upon the lap of the friend who took a mother's care of her, and winding one wasted arm about her neck, would say:—'Now tell me about my mamm!' And when the oft-told tale had been repeated, would softly ask, 'Take me into the parlor, I want to see The request was never refused; an my mamma ' e affectionate child would lie for hours, content-

the affectionate child would lie for nours, co edly gazing on her mother's portrait. But "Pale and wan she grew, and weakly— Hearing all her pain so meekly, That to thein she still grew dearer, As the trial hour drew nearer" recover.

That hour came at last, and the weeping neighbors assembled to see the little one die. The dew of

spasmodically. 'Do you know me darling?' sobbed close in her

answer. All at once a brightness, as from the upper

nance. The evelids flashed open, the lips parted, the wan, cuddling bands flew up, in the litt last impulsive effort, as she looked piercingly into the lar above.
'Mother,' she cried with surprise and transport

in her tone-and passed with that breath into her other's besom.

Said a distinguished divine, who stood by that

bed of Joyous death:
"If I had never believed in the ministration of departed ones before, I could not doubt it pow." "Beace I leave with you," said the wisest Spirit that ever passed from earth to heaven. Let us be at peace, amid the spirit-mysteries an ; questionings on which his eye shall soon shed light of eternity. -National Era.

LIBEL SUIT DECIDED .- In the Superior Court at Cincinnati, on Friday, (Judge Storer,) the case of George White vs. M. D. Potier & Co., was dehad failed, which report proved to be incorrect, nis failure, which occurred nine months thereafter was caused by that report. On the part of the defence it was shown that the report was current. here and in New York, before its publication; that the publication was not a malicious one, &c., and it also appeared that plaintiff's debts were increased largely between the date of the report of his failure and that of his actual failure, and it therefore followed hat his credit could not have been injured the publication. The jury rendered a verdict for the defendants.

SEVASTOPOLIANA .- The Albion, the English paper printed at New York, recommends to the Britons and their friends in that city, "an assmblage to congratulate each other on the triumphant issue of the great siege of modern times."

According to the Courrier des Etats Unis the Ruzsian flag counted at Sevastopol, in the month of September, 1854, seventeen ships live of 120 guns, the remainder of 84 guns; four frigates of 60 guns; four corvettes or brigs; twelve steamships; and e ghty-two ships of inferior rank; in all 108 ships carrying 2,200 guns. This colossal armament was destroyed by the Russians themselves to prevent it from falling into the hands of

LIEUTENANT MAGRY .- The Russian charge d'afnires, on Thursday, delivered to Lieutenant Maury, at the National Observatory, by command of is government, an autograph letter from the Grand Duke Constantine, the commander-in-chief of the Bussian havy in eulogy of Lieut. Maury for the 'eminent scientific works' of the latter, "for which navigators of every nation are indebted" to ois "zeal and talents." He says that he should rejoice to present hun with a testimonial of his esteem, but knowing the mws of this country, which do not permit him to accept anything from foreign orinces, he must confine himself to the nere expression of his sentiments.

SEBASTOPOL-ITS 'FALL' TO BE CELEBRATED IN NEW YORK .- The New York correspondent of the Baltimore American writes,-

"It has already been stated that our English and Frence merchan's intend having a grand panquet after the arrival of the next steamer in nonor of the capture of Sebastopol. The St. Geor-ge's and St. Andrew's Societies will unite in the emonstrotion, but the St. Patrick's are said to have requested time to deliberate. On the other hand it is given out that a manifestation of some sort in layor of Russia, (as an offset) is in contem plation. Young America, with so French political exiles, are said to be at the bottom of it."

USES OF THE TELEGRAPH .- The electric telegraph is becoming more and more useful. A peas-ant received latery by mail, a letter from his son in his office, when C. sought him to demand Joseph, a Zouave before Sebastopol. The young man mentioned the fact that his legs were yet whole, but that his shoes were worse for wear. him. The result was that C. drew a pistol and The affectionate father baving purchased a pair of shot him. We have no other reliable information, says the Lynchburg Virginian of Wednesday, and lorwarding them. At last he thought of the telegraph-the line to Marseilles ran through his vil. therefore await particulars, which we suppose lage. He part the address on one of the soles, and will be furnished by the local press. Both were slung the shoes over the wires. A pediar passing by, struck by the solidity of their workmansi appropriated them, placing his used up traps in their place. The next morning, the old daddy reto the spot to see if the telegraph had exe cuted his commission. He saw the substation which had been effected. "I vow," he exclaimed if Joseph hasn't ment back his old ones!"

THE NORTH AMERICAN PHALANX .- The Fourierite establishment known as the North American Phalanx, New Jersey, has disbanded, and its real estate has been sold for \$55,000, or a little more ne explanation of the offence, but receiving no than \$83 per acre. This, with the estimated proceeds of its moveable property, will, it is said, enable them to pay from sixty to seventy per cent. on the stock issued. The concern has been in operation for twelve years, and its members now admit that it has proved an atter failure.

> Intelligence has been received by the Pacific of the death of Captain Hooper, of Baltimore, at Liverpool. Capt H. was in command of the new ship William Penn, owned by himself in connection with the House of J. Hooper & Co., of Baltimore, which was loading at Liverpool.

> The steamship Adriatic, now being built for the Collins line of steamers, will be, it is said, the largest and most magnificent vessel affoat. She will measure 5600 tons; her length will be three hundred and forty-five feet on the broad line; her depth of hold is thirty-three feet; breadth of beam

ATOR, May 1, 1847.

DR. A. M. Mauriceau:—My Dear Sir—My wife has been perceptibly sinking for some three years or more, in consequence of great anguish and suffering some months before and during confinement; every successive one more and more deolitated and prostrated her, putting her life in imminent danger, and which was on the last (casion despatred of. I supposed that this state of things was inevitable, and resinced myselt to meet the worst. I heard your book highly spoken of, as containing some matters teaching my case. On the receipt and pertusal I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provides a tenedy. I topened a prospect to me which I little conceived was possible. But, for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left mother less. 00 ths. WE WOULD NOT GIVE A DOLLAR FOR ALL THE TINCTURE HAMPTON EVER MADE."

usinge! Let the afflicted hear liter, and then decide who er to suffer on the made whole. We professional men-th rained here the hear. Rev James W. H. milcutt, the talented and independ ont editor of that highly popular and extensively read pa-er, the Christian Banner, published at Fredericksburg, Va. in his editorial of the 18th of May, 1855, thus speaks of Hampton's Vegetable Tinchure: "Some time ago we merely alluded to Hampto etable Tricture, with a promise of noticing more parties tharly the great retief we have ourself derived from its use. During our collegiate course, owing to sedentary habits, we became quite daypeptic and were very much troubled with vertigo. For more than twelve years after

use. During our collegiate course, owing to sedentary habits, we became qu'te dyspeptit and were very much troubled with vertigo. For more than twelve years after leaving college, we were laboring seriously under these two afflictions. In the spring of 1853, our hearth became so delicate that it was with great difficulty we could at tend to the ordinary duries of our profession. Every thing we are immediately turned acid, our digestive or gains became wholly deranged; ousing as it seemed to usall their activity and vitality; we were constantly depressed in spirit; our energy aimost forsook us, and nothing but necessity used us on to action.

"We had taken strong medicines. Observed great particularity in our diet, and all to no purpose. We had despaired of ever secovering our health when a tenale friend of ourst importuned us to get a bottle of Hampton's Vegetable Tinctine, assuring us that we wood find great islief from its use. We briefly repited, 'we would not give a dolar for all the Tructure Hampton ever made, so had no faith in it or any other medicine in effecting a cure on its. In the kindness of her heart, however, without consulting us about it, site sent and got one bottle and urged us to accept of it, and for her sake, as it could not possibly injure us, to use it according to direction. For the high regard we had for her and her act of kindness, we promised to do so. And without he least exageration we can truly say that before we had used the content's of one bottle we felt like a kew man.

"We used, consecutively, from ten to fifteen bottles—we were afraid to give it up, learing our old disease might return. Since then, our digestive organs haue been univernity correct, our head clear, and so far as our is bors, totis, inhalities, res, onsbittles, and worldly care will allow, our spirits have been bougant, and worldy care will allow, our spirits have been bougant, and worldy care will allow, our spirits have been bougant, and worldy care will allow, our spirits have been bougant, and worldy care
